

## Welcome to the Specialist Cars of Malton July 2014 Newsletter

As we enter July we can reflect on a month which saw Porsche's return to top flight prototype racing at Le Mans come very close to victory and of course the Goodwood Festival of Speed. July promises to be a busy one with a couple of big events planned.

### Porsche Club at Lotherton Hall, Sunday 20th July

A date for your diaries, Sunday 20th July is the date for the Porsche Club GB's Yorkshire Porsche Festival at Lotherton Hall. The show, previously held at Harewood, is a great day out for all the family. More details are on the [PCGB website here](#).

### Big Fat Tour At Specialist Cars

Sunday 27th July will see over 100 Volkswagen Audi Group fans come to the showroom here in Malton as part of their annual [Big Fat Tour](#). There is always a wide variety of cars come, from classic to modern, stock to heavily modified so keep an eye out for them if you're in the area.

### Porsche At Le Mans

After a strong performance by both 919 Hybrids the Porsche Team was left empty handed after a dramatic final stage of the race. After more than 22 hours the LMP1 crew of car no. 20 (Timo Bernhard/Brendon Hartley/Mark Webber) suffered a powertrain problem at the most famous endurance race in the world. Earlier in the race the car was leading for a significant period. The second innovative and highly complex prototype – in the hands of Romain Dumas, Neel Jani and Marc Lieb – likewise proved to be very competitive, but was hampered by a drivetrain problem. However, their no. 14 car crossed the finish line under its own power.

After a thrilling start to the race with changing weather conditions, numerous accidents and a relatively calm night, Timo Bernhard took the lead in the Porsche 919 Hybrid. This was after 20 of the 24 hours. At 12:36 on Sunday he handed the leading car over to Mark Webber. Less than 20 minutes later the Australian was forced to slow down and drove solely on electric power back to the pits. The team could not repair the damaged powertrain.

Not even half an hour later, the sister car with Marc Lieb at the wheel had a gearbox failure. Car no. 14 was lying fourth before it was pushed into the garage at 12:54. Shortly before the chequered flag was waived, the Porsche 919 Hybrid returned to track but in the end was not classified.

## **Stock Update**

**The following cars came into stock during June:**

### **Porsche 964 Turbo**

Finished in Rubystone [this 964 Turbo](#) has covered just 12,000 miles from new!
